SUMMARY

Motivated Computer Science Engineering student with strong foundations in Data Analysis, Machine Learning, Statistics, and SQL. Experienced in data cleaning, preprocessing, predictive modeling, and generating actionable insights using Python, Pandas, NumPy, and Scikit-learn. Passionate about transforming raw data into meaningful business decisions through analytical and statistical techniques.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering Government Engineering College, Karwar (VTU)	Nov 2022 – May 2026 CGPA: 9.37 / 10
Pre-University Course (PCMB) Bangurnagar PU College, Dandeli	Jun 2020 – May 2022 Percentage: 89.8%
Secondary School Leaving Certificate (SSLC) Rotary Kannada High School, Dandeli	Jun 2019 – Mar 2020 Percentage: 92.48%

EXPERIENCE

Python Developer Intern (Data Science) QSpiders (a unit of Test Yantra), Rajajinagar <i>Technologies: Python, Pandas, NumPy, Scikit-learn, SQL, Git</i> - Analyzed and preprocessed housing datasets containing 1000+ records using Pandas and NumPy. - Built predictive models using Random Forest Regression for house price estimation. - Performed feature engineering, data cleaning, and model evaluation to improve prediction performance. - Generated analytical reports and visualizations to support data-driven decision making.	Jan 2026 – Present
AI/ML Intern – Podcast Transcription and Topic Segmentation Infosys Springboard <i>Technologies: Python, Whisper, Vosk, NLTK, Transformers</i> - Processed and analyzed large audio datasets to extract meaningful textual information. - Applied NLP techniques for topic segmentation, summarization, and information extraction. - Improved content organization and reporting through automated analysis workflows.	Nov 2025 – Jan 2026
Web Developer Intern Aroma Brand Solutions (Remote) <i>Technologies: HTML, CSS, JavaScript, PHP, MySQL</i> - Worked with MySQL databases for data storage, retrieval, and reporting. - Developed dashboards and data-driven web applications supporting business operations. - Assisted in database management and report generation processes.	Nov 2024 – Feb 2025

PROJECTS

House Price Prediction System <i>Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib</i> - Cleaned, transformed, and analyzed real estate datasets containing 1000+ records. - Built and evaluated machine learning models for accurate price prediction. - Performed exploratory data analysis and feature engineering to improve model performance. - Created visual reports and insights using statistical and graphical techniques.	Jan 2026 – Present
SuperLegalDocAI <i>Technologies: Python, NLP, Transformers</i> - Developed an AI-powered legal document analysis system for summarization and classification. - Automated information extraction and improved document processing efficiency.	Sep 2025 – Jan 2026
AI-Powered Job Interview Coach <i>Technologies: React, Gemini API, Node.js</i> - Developed an AI-driven interview assessment platform with automated feedback. - Integrated APIs and analytical evaluation mechanisms for user performance tracking.	May 2025 – Jun 2025

TECHNICAL SKILLS

Programming: Python, SQL, Java, C, JavaScript
Data Analysis: Pandas, NumPy, Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA)
Machine Learning: Scikit-learn, Predictive Modeling, Regression, Classification
Statistics: Descriptive Statistics, Hypothesis Testing, Correlation Analysis, Data Interpretation

Data Visualization: Matplotlib, Seaborn, Reporting Dashboards

Database Management: MySQL, MongoDB

Analytics Tools: IBM SPSS Statistics (Basic Knowledge), Jupyter Notebook, Google Colab, Excel

Tools & Platforms: Git, GitHub, Linux, VS Code, Google Cloud Platform

CERTIFICATIONS

Machine Learning – Infosys Springboard

Generative AI with Gemini – Google Cloud (Coursera)

Cybersecurity Professional Certificate – Google (Coursera)

LEADERSHIP & ACHIEVEMENTS

- Achieved CGPA of 9.32/10 in Computer Science Engineering.
- Led a 2-member team during Gemini 2.0 AI/ML Training Program.
- Ranked among the Top 15% participants in SUSTAIN-A-THON 2024.

ADDITIONAL INFORMATION

Languages: English, Hindi, Kannada, Konkani, Marathi
